

MAX LEVIN HID

21/24W
AUXILIARY /
DRIVING LIGHT

CE FC RoHS

Wherever
a powerful light
is needed

HID illuminates further than you can see

Round or Square Battery Shape

Round battery with Velcro or square with a belt pouch for the frame, the belt or the back bag, etc.

21W & 24W Power Output

Creating up to 1,750 lumen, much brighter than double 12W light heads. 24W HID bulb reach 1750Lm and equal to 75W halogen bulb.

In-house HID Bulb & Ballast

We do nothing but HID, with unique know-how for more stable and a lot better lighting performance.

Regular or Economy Kit

Can be either powered by rechargeable batteries (regular kit) or by batteries on the applications (economy kit).

With Both Indoor & Car Cigarette Adaptors Charge is no longer confined indoors.

IP Level: 54
Able to survive harsh surroundings.

Universal Frame Mount

Making the light head attachable to wherever it should be.
